

Hi Kids,

Get moving and exploring with INSECTS!

Go outdoors...

- Go on a bug hunt – when you find something interesting, look at it closely. You can even put it in a small container to help you study it. *Avoid insects that sting or bite – ask an adult for help.
- Draw pictures of the insects. Write a story about their day. Observe how they move and try it yourself!
- Use a guide to identify them like <http://www.insectidentification.org/>
- Have fun watching your bugs, but let them go after a few minutes because they don't have food or air inside your jar.

A read-aloud story about BUGS...

I Love Bugs by Philemon Sturges

<https://www.youtube.com/watch?v=IGxI6v-kIOY>

Bug Riddle:

This is a flying insect
In a hive it might be seen
Its workers go get pollen
To take it back to their queen

What Am I?

I help create a hill but I'm not a mole
I can carry heavy loads but I'm not a dump truck
I'm an insect but I'm not a dung beetle
I sometimes come after fire but I'm not a fly
I can be red but I'm not a ladybug
I am an _____

Answers: Bee, Ant

Go on a Bug Hunt.			
How many can you find? X			

Did you know:

Did you know insects have three major body parts?

1) head 2) thorax 3) abdomen

Watch this...

Check out insect videos from *National Geographic for Kids!*
